
Buying books

Posted by Kim Yau Cheung - 2008/08/31 00:21

Where can I buy cheap textbooks needed for my courses? Are they really that important? Do you think notes distributed to the class or that you take by yourselves are much more better?

Some students would buy the edition for mainland China rather than the international edition.

That's not a problem. However, it's not easy to find mainland versions.
